Subject: Omaha Lobby Furniture

Hey Curt - I just returned from the installation of the lobby furniture at Omaha and all of the IMSS pieces looked fantastic!

This was a great introduction to IMSS and we were very pleased with the entire process from quotes, to shop drawings and finish samples to final product. IMSS will definitely be on our bid list for furniture (casegoods and upholstery) in the future!

The purpose of this letter is to recommend IMSS LTD INTERIORS as a highly reputable, outstanding Case Goods Mfr. Throughout three of our properties, a Hyatt Regency, a Fairmont and a Hilton, which included guestrooms, suites, executive concierge club and lobbies, the quality of their work was flawless. Their delivery beat our expectations and their constant communications kept all parties up to date, not to mention the speed with which their almost immediate response to inquiries was most assuring. Any problem issues that arose between design changes, materials availability, spec inconsistencies, or rushed backfill items, they were immediately and diligently pursued to our complete satisfaction.

I can't say enough good things about our experience with this firm. From their production capabilities to their customer service staff they are a can-do group of people. They're very flexible, easy to work with and seem committed to 100% complete customer satisfaction. We would most definitely consider them for our next property.

Sincerely yours,

Alex DeHaven
